BLUE STAR MUSEUMS

National Corvette Museum is a 2024 Blue Star Museum

The National Corvette Museum announced it will join museums nationwide in the Blue Star Museums initiative, a program that provides free admission to currently serving U.S. military personnel and their families this summer. The 2024 program will begin on Armed Forces Day, Saturday, May 18, 2024, and end on Labor Day, Monday, September 2, 2024.

NCM Insurance

Our agency specializes in insuring collector vehicles, boats, golf carts, motorcycles, etc. If it's a toy, there's a good chance we can insure it! Our policies are written on an agreed value basis, which means in the event of a total loss, you know exactly how much you will be receiving back. We also understand that your vehicles are not driven like your daily driver, and having unlimited miles with a higher premium may not suit your needs. We offer 1k, 3k, and 6k miles per year plans. This allows you to select the tier you desire and keep your costs low by not overpaying for usage you don't need!

Imagining Our Future

Just like the original Corvette design team, the founders of the National Corvette Museum may not have known the full scope of what was to come, but they had big dreams to chase. Long before the Museum we know today came to life, they put pen to paper and imagined what could become “Corvette Land” including a Corvette music pavilion, water park, club vehicle display lawn, and more. The spirit of imagination has driven campus growth since the Museum’s opening. We have secured the rights to the property currently operating as an RV dealership between the Museum and Interstate 65, protecting our visibility while opening exciting new opportunities.

MAKE A GIFT

Win a 2024 Arctic White Corvette Coupe

On Thursday, June 13th, at 2 pm CT, we will be raffling off a **2024 Arctic White Corvette Coupe**. Tickets are \$100, and the raffle is limited to 2,000 tickets.

Message from the Chair of the National Corvette Museum

The National Corvette Museum takes very seriously our role in serving our Members and the entire Corvette community. We realize the impact membership has made on everything from the success of our events to the long-term stability of the Museum. We also thank you for your work and support as an NCM Ambassador. You are vital in providing Museum news, support, and information to the incredible network of Corvette Clubs coast-to-coast.

With this responsibility in mind, we wanted to directly address the online petition about an internal National Corvette Museum staff matter. Out of respect for our Clubs and Members, we are providing clarity on inaccuracies in the petition and address specifics on the process.

How is the National Corvette Museum Leadership Currently Structured?

With the absence of a current CEO at the Museum, the Board of Directors appointed the Executive Committee as the interim CEO. While the Board of Directors is not traditionally involved in any staffing decisions outside of the CEO level, currently the Executive Committee has all the responsibilities associated with the CEO, including staff decisions. This structure will be in place until we identify a full-time CEO.

How did the NCM approach this particular situation?

During challenging situations in any business, it is paramount that leadership recognize formal concerns from employees and take them seriously. When these situations arise, investigations are required, followed by appropriate due diligence. When the process is complete, a thorough review is conducted.

These best practices were followed, including a full review of all investigation findings by the Board of Directors. The entire Board had full visibility into the situation and delegated the decision to the Executive Committee as the interim CEO.

Looking Ahead

Change can be uncomfortable, but sharing the facts and process to demonstrate our intentions are fair, just, and done with due diligence allows us to move forward.

We trust and value the role our Ambassadors and Members have in the success of the Museum and ask that you take the same responsibility for the news you share with your club. You are welcome to send this communication to your Corvette Club members and stakeholders to clear up any questions.

Thank you for all you do for the National Corvette Museum.

Kaye Wagner

Board Chair, National Corvette Museum
