

### A 501(c)(3) Non-Profit Foundation

As a friend of the National Corvette Museum, we are reaching out with an opportunity to make a significant impact on the restoration of vehicles in our collection.

The NCM is more than just a museum; it's a place where enthusiasts gather to celebrate the passion, innovation, and craftsmanship that makes Corvette America's Sports Car. With your support, we can continue to uphold this legacy and ensure that future generations can share in the thrill and wonder of the Corvette experience.

The stories of innovation and exhilaration are what we preserve when we begin Collections restoration projects like the work being done to Zora Arkus-Duntov's 1974 Stingray. This big block-equipped, four-speed car was the only Corvette Zora ever owned, and like any machine, the passage of time has taken its toll on this automotive treasure. To ensure its place in telling the story of Corvette's evolution, we have undertaken an ambitious restoration project complete with the resources to return this priceless artifact to its former glory.

By restoring Zora's Corvette and others in the Collection, we are preserving an invaluable piece of Corvette history for future generations to appreciate and learn from.

Today, we are asking for your assistance as we begin our year-end giving campaign. Your generous donations contribute to the meticulous restoration and maintenance of our collection, and not only preserve the history, but also allow us to showcase these beautiful vehicles for generations to come.

Suggested giving levels include:

- \$250
- \$500

- \$1,000
- \$2,500
- \$5,000
- Custom Amount

Donors at the \$1,000+ level will receive special recognition in our annual report and VIP invitations to select exhibit openings and additional special events held throughout the year. If you would like to discuss your individual giving options, please contact our development team at 270-781-7973. We would be happy to customize a giving plan for you.

Thank you for your commitment to preserving the Corvette legacy, and for helping us ensure that the story of this remarkable vehicle continues to be told for generations to come.

### **It's Never a Good Thing When You Have to Use Your Insurance.**

Thankfully, James had NCM Insurance when disaster struck. In just a few short hours, James' Fort Lauderdale home was under nearly a foot of water. Torrential rainfall had completely flooded his home, garage, and worst of all... his 2016 Corvette. James' Corvette was considered totaled, and he received a check for his agreed value of \$70,000. "There was never a question that I was going to get what the agreed upon value was. I was insured for a catastrophic event and that's exactly what happened. I was made whole (in what I would consider) almost immediately."
