NCM Insurance Road Trip

Everyone in the car hobby has stories about their toys and how they acquired them. Whether it was passed down or found in a barn, the back story makes each car more personal. Our Executive Director, Adam Boca, is no different. As an enthusiast and all-around gear head, Adam has several stories of how he has found his

cars. This might be the most adventurous. Adam acquired this 1972 Suburban, located across the country, 1,900 miles away. He drove the vehicle from Idaho to Bowling Green on a three-day trip. Be sure to watch us on Facebook and YouTube as we document the trek from state to state. This will all be featured in our next *American Sports Car* magazine, as we deep dive into the whole journey and interview the well-known collection the Suburban is leaving.
