

## Monthly Newsletter

### ***President's Comments:***

Well if it would ever stop raining, we could do some more activities as a Club!!! There are some more activities coming up now as the weather gets warmer and the days get longer. You can see this in our Upcoming Events listing on our Website. There is Foster Fest starting up again along with several Cruise In's and we are planning some neat Club Cruises too. We will also continue our Corvettes and Coffee and we might try and have it at some other places to provide a bit of variety.

I want to thank Ray and Joy for coordinating the Club Cruise last month with the New South Cruisers to the Antique Auto Museum in Cairo, Georgia. I am sorry that Jenny and I missed that one but we were in North Carolina attending a Scottish Highland Games Festival. I think that it is really great that we get together with other clubs for events like this. We will look into doing more in the future.

I also want to remind everyone that we have our annual Beach Caravan coming up in May and John and Barb have done a great job setting everything up for this year's Caravan. You need to get your room booked at the Edgewater Beach Resort as soon as possible to get the Club rate. We also need volunteers for setting up at Solomon Chevy on Thursday, the dinner on Thursday evening and of course all the activities at the Edgewater. This will include the Corvette Show on Saturday, helping the NCM set up their tent and tables, and of course the silent auction and the main auction on Saturday.

Also, don't forget that we have a For Sale area on our website if you have anything you looking to sell to include your Corvette or Corvette related items. Ray has done a truly fabulous job updating our website and you need to take a look at it when you get the chance. Also if you have any suggestions for the website please let Ray or me know.

Save the Wave.

Carl
