President's Comments:

I hope all of you are doing well. This virus has really put everything in a state of confusion and concern. I am really hoping and praying that you all are still healthy and trying to enjoy life in isolation.

Of course, the virus has put all our planned Club activities on the back burner for the time being. The Corvette Caravan has been cancelled for May and we are now scheduled to have the Caravan in October. I really think that October will be a great time to have the Caravan. The weather will be a bit cooler and we won't be competing for participants like we have been these last few years when the Caravan was in May. John has already notified every one of the changes and has gotten the Edge Water Resorts all set for October. You can already reserve your room if you wish to.

I am looking so forward to getting together again as a group of Corvettes fans and have our Corvettes and Coffee again along with some more Club cruises on a Saturday. WE have a great Club and I miss you all!!!

Please stay vigilant against this virus and I hope to see you all in the near future. Save the Wave.

Carl
